## 1 Getting started/Making the decision

- How can this book help you?
- Feasibility study
- Should you move house instead?
  - Budgeting
  - Timescale
- The most cost effective home improvements
- Research
  - Magazines
  - Books
  - Exhibitions
- Project planning

## 2 Appraising the property: making the best of what you've got

- Choosing the type of home alteration
  - Re-organise
  - Add an extension
  - Conservatories
  - Loft conversions
  - Basements
  - Demolish and rebuild
- Location, features, benefits and limitations of your house
  - Views onto the site
  - Views out from the site
  - Busy road/noise
  - Security
  - Neighbours
  - Neighbouring buildings
  - The garden
  - Access/vehicles
  - Sunlight
  - Ground conditions
  - Subsoil type
  - Trial holes and existing foundations
  - Adjacent buildings
- Bureaucracy and legal issues
  - Legal issues
  - Party walls
- Planning restrictions and controls
  - Planning approval
  - Permitted development rights
  - Greenbelts
  - Design controls

- Ancient Monuments and Archaeological Areas
- Tree Preservation Orders
- National Parks
- Areas of Outstanding Natural Beauty
- Protected species
- Highways
- Controversy
- The existing house
  - Design
  - Checklist for a house health checkup
- Surveys
  - Valuation survey
  - Home Information Packs
  - Property Purchase Survey and Valuation
  - Building Survey
  - Structural Investigation
  - Other specialist surveys
    - Measured surveys

## 3 Designing the changes to your home

- The design brief
- Finding a designer
- Working with a designer
  - Architects
  - Architectural Technologists
  - Surveyors
  - Contractors
  - Consulting Structural Engineers
  - Unqualified designers
  - Construction Industry Council
- Where to find a designer
  - Personal recommendation
  - The Royal Institute of British Architects
  - ASBA Architects
  - Yellow Pages and Yell.com
  - Other projects in progress
  - Local authorities
  - Magazines and shows
  - Others
- Choosing the right designer
  - Interviews
  - Formal qualifications
  - Experience
  - Attitude
  - The size of the practice
  - Completed work
  - Indemnity insurance
  - Changing designers
- Appointing an architect
  - Paying a designer
- Appointment contract
- Design strategy

- The design process
- Envisioning -- how a design is described
- The ingredients for creating a design
- Style
- Contemporary style
- Space planning
- Structure and construction
- Daylight and sunlight
- Finishes, colour and materials
- Stairways
- Front of house
- Features
- Landscaping
- How to be green – sustainable construction
  - Use less energy
  - Generate your own energy
  - Reduce pollution
  - Use recycled and recyclable materials
  - Reduce carbon emissions

#### 4 Types of house alteration projects

- Extensions
  - Design strategy
    - Matching in
    - Contemporary style additions to your home
- Local authority approvals
  - Overshadowing and overlooking
  - Relationship to adjoining buildings
  - Building lines
  - Flood risk
  - Neighbours
  - Parking space
  - Change of use
  - Areas of special control
  - Getting planning approval for a contemporary design
  - Building regulations
    - Fire escape through windows
    - Energy use
  - Party Wall Act
  - Legal issues
  - Some simple extensions to a typical suburban house
- Loft conversions
  - Planning application
  - Building regulations
  - Roof construction
  - Construction of lofts that are less suitable for conversion
  - An ideal loft conversion
    - Dormer windows
- Conservatories
  - Planning permission
  - Building regulations

- Design tips for a conservatory
- Party Wall Act
- Basements
  - What is it for?
  - The existing house
  - Basement construction
  - Planning permission
  - Building regulations
  - Daylight and fresh air
  - Party Wall Act

#### 5 Submitting applications to the Local Planning Authority

- Planning permission
  - Giving your application the best chance of approval
  - Making a planning application
    - Types of planning application
    - The drawings
    - Extra information
    - Ordnance Survey and accuracy
    - Filling in the planning form
    - Planning certificates
  - What happens once an application is submitted?
    - Acknowledgement
    - Consultations
    - Keeping in touch
    - Representations
    - Officer's report
    - Local councillors
    - Planning Committee meetings
    - Decisions
    - Conditions
  - Appeals
  - Summary
- Submitting a Building Regulations Application
  - Introduction
  - What are the building regulations?
  - Full Plans Approval
  - Building Notice
  - Regularisation Certificate
  - Types of building control service
  - England and Wales v Scotland
  - Approved documents
  - Making a building regulations application
  - Drawings and specifications
  - Structural calculations
    - Filling in the Full Plans Application form
  - Working with buildings control officers
  - Site inspections
  - What can go wrong?
    - Failure at full plans stage
    - Failure to comply on site
  - Speeding up the process
  - Summary

## 6 Getting the building work done

- Preparing a tender package
  - What is a tender package?
  - Sources of information
  - What goes into a detailed tender package?
- Budget check
  - Finding building contractors
  - How to find builders
  - Checking out building contractors
    - Checking out building contractors – First Stage: a phone call
    - Checking out building contractors – Second Stage: research and visiting
  - Self managing tradesmen or ‘subcontractors’
- Getting a price for the work
  - Opening the tenders
  - Checking out building contractors – Third Stage: after tenders
- What to do if you go over budget
  - Over-specification
    - Wrong prices tendered or wrong contractors chosen
    - Inflation
    - Cut your cloth – or your losses
- Legal matters
  - Some definitions
  - Agreeing the building contract
  - Unfair terms
  - Sale of Goods Act and Supply of Goods and Services Act
- Preparing for work to start
  - Where will you live?
- Pre-contract meeting
- Starting to build
- Certificates
  - Architects’ Certificates
    - Interim Certificates
    - Inspection/Valuation Certificates for building societies
    - Practical Completion Certificates
    - Final Certificate
  - Other forms of certification
- The architect’s role on site
- What if something goes wrong on site?
  - The contractor
  - Your professional advisors
  - Legal recourse
- Reaching completion
  - After completion

## 7 Case studies

- A cottage in the country
